

**Bernalillo County 2012 Bond Cycle**  
**Non-Motorized Transportation Not Technically Evaluated**

<b>Project ID</b>	<b>Project Name</b>	<b>Description</b>	<b>Project Type</b>
70	HAHN ARROYO LIGHTING_MONROE ST_TO_SAN MATEO BLVD	Install 9 full cutoff lighting fixtures along walkway/bike trail on the Hahn Arroyo between San Mateo and Monroe	Non-Motorized Transportation Infrastructure
150	HILAND THEATER TOD_MONROE ST_TO_QUINCY ST	In addition to enhancing the streetscape, sidewalks and building exteriors, this project will involve infrastructure improvements and the acquisition of adjacent properties. Infrastructure will enhance pedestrian access to the area and also create a safe	Non-Motorized Transportation Infrastructure
1975	Alleyway Beautification Project	Our alleyways are public spaces that have been neglected and need improvement. They contribute to dust/pollen pollution, weed/volunteer tree proliferation, and most importantly crime. Current clean up programs by the county/city are ineffective. A program that cleans, grades, and resurfaces alleys with gravel or green product will reduce all of the above and give us a "fresh start" to work together to create safe, inviting spaces for public use.	Non-Motorized Transportation Infrastructure
1977	Fire & Dumping Drones	Purchase and use unmanned aerial vehicles to locate spot fires, the people who might be setting them, catch illegal dumping, and any additional illegal activity that might be occurring in those locations (maybe the West Mesa Serial Killer would have been caught had the county had such a program in 2002-2004).
